

A vibrant photograph of the Northern Lights (Aurora Borealis) in shades of green and blue, dancing over a snow-covered mountain range. The lights are reflected in a calm body of water in the foreground. The sky is dark with visible stars. In the top right corner, there is a graphic of a white sheet peeling away from the background, revealing an American flag underneath. The text "MADE IN USA" is printed in a bold, sans-serif font on the flag.

**MADE IN
USA**
