Road Glide® ST

Over the past few years the American V-twin custom bike community created a new breed of touring bikes known as "performance baggers." As the name suggests, these bikes are as much about high performance as they are about horizon chasing. In 2021, a Screamin' Eagle® factory-prepped Harley-Davidson® Road Glide® motorcycle won MotoAmerica's King of the Baggers road race championship, which led to this new model, the 2022 Road Glide® ST motorcycle. Fittingly, the ST is powered by Harley-Davidson's most powerful standard engine, the Milwaukee-Eight® 117-cubic-inch engine, offering ST riders 106 horsepower and 127 ft-lbs of torque to quickly run down the next horizon.

Special thanks to Ventura Harley-Davidson®, Austin Pecovaro, and Dan Poe
