Anchusa

All of June's rosiness needs
complementary blue, and few plants
wear the colour as well as anchusa.
In fact, no plant, not excepting the
old-time wisteria, is more
dolphinlike, decked itself in a more
true azure colour. A seldom grown
4-foot perennial, *Anchusa italica*, or
chide Italian bugloss, and albanet-
shows its family ties to both borage
and comfrey in rather coarse, rough
