

# COVID BODY TEMPERATURE CHART

| Day   | Time  | Body Temperature in Celcius | Body Temperature in Fahrenheit |
|-------|-------|-----------------------------|--------------------------------|
| Day 1 | 12 PM | 37.0 - 37.5°C               | 98.6 - 99.5°F                  |
|       | 6 PM  | 36.8 - 37.0°C               | 98.24 - 98.6°F                 |
|       | 12 AM | 38.2 - 38.5°C               | 100.76 - 101.3°F               |
|       | 6 AM  | 39.1 - 39.5°C               | 102.38 - 103.1°F               |
| Day 2 | 12 PM | 39.3 - 39.8°C               | 102.74 - 103.64°F              |
|       | 6 PM  | 41.0 - 42.0°C               | 105.8 - 107.6°F                |
|       | 12 AM | 37.0 - 37.5°C               | 98.6 - 99.5°F                  |
|       | 6 AM  | 36.0 - 36.5°C               | 96.8 - 97.7°F                  |
| Day 3 | 12 PM | 36.4 - 36.7°C               | 97.52 - 98.06°F                |
|       | 6 PM  | 36.5 - 36.8°C               | 97.7 - 98.24°F                 |
|       | 12 AM | 36.5 - 36.8°C               | 97.7 - 98.24°F                 |
|       | 6 AM  | 36.4 - 36.8°C               | 97.52 - 98.24°F                |
| Day 4 | 12 PM | 36.5 - 36.9°C               | 97.7 - 98.42°F                 |
|       | 6 PM  | 36.5 - 36.9°C               | 97.7 - 98.42°F                 |
|       | 12 AM | 36.3 - 36.7°C               | 97.34 - 98.06°F                |

\*Note: The temperature range for COVID positive individuals differ accordingly. Symptoms may occur depending on the days too. Some COVID positive patients never run a fever at all. However, the majority of COVID positive patients may experience a 102.74 to 107.6°F body temperature.
