

## Double Dilbert!

For the first time, the Dilbert calendar is made entirely in America, and printed on two-sides, for twice the comics!

Classic Dilbert comics are on the front of each page, as always. But on the back of each is a "spicier" Dilbert comic, created more recently, with provocative topics you might not want to share with your humorless coworkers. But no one will see those comics unless they check the backs of the calendar pages.

The spicier comics, sometimes called Dilbert Reborn, are normally only available to subscribers on the X platform (@ScottAdamsSays) or on the Locals subscription site ScottAdams.Locals.com that includes political content, the Robots Read News comics by Adams, and lots more.

I hope you enjoy the new and improved Dilbert calendar.
