

Founded in 1903, Ford Motor Company's fortunes took off ten years later, with the adoption of the moving assembly line for the Model T. Mass production cut prices, putting cars in reach of the masses. Throughout the 20th Century, sales staples like the F-series pickup helped the company compete with rival Chevy for the top spot in domestic car sales. Ford Classics celebrates some of Ford's better ideas, including the sporty Thunderbird, the segment busting Mustang, the versatile Bronco, and the family-friendly Country Squire.
