Dear Malcolm Clarke:

Thanks for the cassette of "August 4th, 2026."

Superb! This is my first chance to hear what you have done. Incredible.

I was pleased to hear of the Imperial Tobacco Award for Radio Drama given it.

The sounds you have manufactured, the quality you have given to the robot voices is truly amazing.

What future for this production now? Have you thought to offer it to a recording company in England to make an LP album, perhaps? What a shame not to have it out in some more permanent form. With SOFT RAINS on one side of the album, and perhaps another of my stories on the other? Let me know if you think this is a practical--aesthetic as well as poundwise--idea.

I would certainly sign a reasonable contract on same if you decided to contact my London Agents on this.

Congratulations to you for your adaptation, and to the actors and all the technical wizards. Grand!

Bless you in this Holiday Season...

Ray Bradbury
