

High Risk of Rip Currents

For All East Coast Beaches Through Friday Evening

A **HIGH RISK** of rip currents continues for all east coast (**Miami-Dade, Broward, and Palm Beach County**) beaches through Friday Evening.

→ Rip currents can be life threatening to swimmers who are caught off-guard.

→ **When in doubt, don't go out!** Always be sure to swim at a beach with on-duty lifeguards.

→ Pay attention to the flags at lifeguard stand and beach entrances and heed the advice of lifeguards.
